LADIES BIBLE CLASS TUESDAYS - 10:30 AM

Various Teachers | Room 217

YOUTH

SUNDAY MORNING

Wise Guys | Elders

Lighthouse (Middle and High School)

Oftentimes we discuss great ideas and even think of some people that would be good for implementing this idea, but this quarter we want to take a step back and study what it means to be effective. Effectiveness is in short supply but heavy demand. During this study, we will each examine ourselves and focus on some different ways we can use our talents, skills and opportunities to achieve the most meaningful results for the Lord's Church.

WEDNESDAY NIGHT

Great Chapters of the Bible

Billy Bearden/Small Groups

Lighthouse (Middle and High School)

This quarter we will be splitting up into 11 different small groups based off our age and gender so we can better dive into God's word and have meaningful discussions. We will be examining some of the "great" chapters of the bible. The reason we call these, "Great" is because they hold an important teaching that we as Christians should be familiar with.

WINTER CLASSES

December 2, 2018 -

February 27, 2019

West End Church of Christ

ADULT SUNDAY MORNING

Life of David | Brian Johnson | Room 217

During this quarter, we will be studying the life of David from shepherd boy to King of Israel. While studying David's life, we will draw several spiritual applications from the good times and bad times in David's life.

The Book of Ephesians | Geoff Johnson | Room 221

While in prison in Rome, Paul wrote four epistles that have helped to shape the church for nearly two millennia. Paul's letter to the church in Ephesus gave instructions to help Christians survive spiritually in a society saturated with idolatry, immorality, and false teachings. As we walk along with Paul, he will direct our focus to Christ. He will remind us who God is, what Christ has done for us, and how we are to respond to a God who cares deeply about us.

Great Chapters of the Bible | Mark Sloan | Auditorium

While all of God's word provides fundamental teachings for the Christian to study and apply to their lives, there are some chapters that we would do well to become even more familiar with. There are several portions of scripture that would be considered some of the great chapters we find in the Bible, and our hope is that by studying these chapters we find key teachings for our Christian walk and as a result of doing so, share those teachings with others!

Our Father in Heaven: Teach Us To Pray | Room 204 (Ladies)

This is a class for women who are single again through divorce or death. Our study is an invitation to sit at Jesus' feet and learn how to pray. Using the Lord's Prayer as a model and guide, enter the practical classroom of prayer and learn the lessons that God longs to teach you about coming into His presence and experiencing the privilege and power of prayer. This study is based on the book of the same title by Casandra Martin.

ADULT WEDNESDAY NIGHT

Relationships: The Good, the Bad and the Ugly | Mark Newby | Room 217

We all hunger for long lasting, life giving relationships but, like most things, relationships take work! We all desire a deep relationship with our spouse, parents, children, coworkers, friends, and others around us. In reality, the quality of life we live is directly related to the success or failure of these relationships. Throughout this quarter we will be examining some relationships we find in scripture, specially, some good, bad and ugly relationships. Our goal in doing this is to apply some of these practical teachings to our everyday relationships while considering the approach God has laid out in His Word. By doing this, we will have an opportunity to glorify God, serve others and grow to be more like Christ.

Church Growth | Jeremy Weekley | Room 221

When thinking of church growth most people think of evangelism, but this is only one component of church growth. While it is important for the church to grow numerically, it is just as important for the church to grow spiritually. A congregation cannot grow without good leadership, discipleship, and stewardship models. Learning to work alongside those with different backgrounds and personalities can greatly help a congregation to grow as well. This class will challenge the students to examine scripture and strategies associated with church growth.

Jesus, the Masterful Teacher | Jerry Hogg | Auditorium

During his earthly ministry, Jesus would spend time sharing his thoughts and teaching the people about the will of the Father. Many of Jesus' teachings pierced the heart of hundreds and thousands and many of these people would travel great distances just to hear this masterful teacher. During this quarter we will be studying many of those teachings of Jesus, specifically in His parables. We will examine the doctrine and principles of the parables of Jesus Christ that are unique to each of the New Testament Gospels and the modern-day application of these parables.
